systems

## Chronos Systems

Recent offshoring surveys clearly show that companies in Europe prefer to outsource to Eastern Europe as opposed to Asia due to cultural and linguistic proximity. On the other hand, one of the preferred outsourcing locations of US companies is Latin America. With development centers in Hungary and Argentina, Chronos Systems is ideally suited to service both European and US corporations!

Our services include

### Software Application Outsourcing

- Application Development
- Maintenance and Support
- Enhancements and Upgrades
- ASP services
- Project Management
- Staff Outsourcing

### Business Process Automation

- Business Digitization Software
- Process Automation Implementation
- Self-Service Chronos Workflow Platform

## Software Application Outsourcing

Our application development and support team provides innovative, scalable and reliable solutions for you in operations, HR, supply chain, administration. Via remote access from our development centers in Hungary and Argentina, we can provide the most cost efficient L2 and L3 support in key technologies to our customers in Europe and the Americas. Companies tap our highly skilled resources because of our operations in convenient timezones, our

- [www.coberon.com](http://www.coberon.com)

unique language skills and vicinity to major business locations. We waive knowledge transfer fees for all long-term contracts.

## Business Process Automation

CS has years of unique experience in turning paper-based business processes, simple or more complicated ones alike, into paperless automated workflows. Chronos had the opportunity to participate countless automation and digitization projects across Europe and the USA using different workflow solutions. Chronos has also developed its own workflow platform which is an easy-to-use

software tool to create your own workflows without major IT input or the need for outsourcing.

For more information please go to [www.chronosworkflow.com](http://www.chronosworkflow.com)

## On-Demand IT Staff

CS has been providing flexible IT resources for corporations around Europe, Middle East and USA. These resources can be made available for Chronos Systems customers on a short or long term basis. Feel free to send us your skills requirement together with your project timetable and we will contact you with price and availability quotes within 48 hrs.

## Methodology

CS has over a decade of experience in delivering offshore/nearshore services:

- 100% onsite
- only project management onsite
- full offshore/nearshore development

Using the full offshore/nearshore delivery model combined with the unique CS Remote Project Delivery Methodology, our objective is to perform as much analysis, design and development work as possible offshore. Chronos quality management principles are deeply embedded in our delivery methodology.

## Technical skills

### Programming languages

C, C++, C#, Visual Basic/VBScript, Assembly, Pascal, RPG, Java, JavaScript, PL/SQL, Cobol, ASP.NET, VB.NET, PHP4, ASP, JSP

### Database Management

DATABASE: Oracle, MS SQL, Teradata, Ingres, FoxPro, DB2/UDB, Informix, MySQL, MS Access

DATABASE ACCESS: ODBC, JDBC, OLE DB, ADO, DB2 CLI

### Development

INTEGRATED DEV ENVIRONMENT: Oracle JDeveloper, MS Visual Studio, Forte, Cold Fusion, Eclipse

MULTIMEDIA DEV: Flash, LiveMotion, Director, Shockwave

### Business Consultancy

MODULES: Finance, Logistics, Manufacturing, Sarbanes Oxley  
ERP: JD Edwards, HR Access, SAP

### Technologies

OOA/OAD: Object Oriented Analysis, Object Oriented Design, Object Oriented Programming

TECHNOLOGIES: J2EE, COM+/  
DCOM, DDE/NetDDE, .NET, VOIP

WEB TECHNOLOGIES: SSI, Servlets, EJB, Microsoft DNA, ASP.NET, HTML, DHTML, CGI, ISAPI, Portlets, SOAP, XML/XSLT

## Chronos Systems Smart Solutions

### Other

OP SYSTEMS: Windows XP,  
Windows 2003, Windows NT,  
UNIX (Linux, SCO, AIX, Solaris),  
VMS, OS/400

GROUPWARE: Lotus Notes/Domino, MS  
Exchange, Sharepoint

BUSINESS PROCESS: Domino  
Workflow, Oracle Workflow,  
Chronos Workflow,

Windows Workflow Framework

APPLICATION SERVERS: MS IIS, JRUN,  
Websphere, WebLogic, Tomcat

BUSINESS INTELLIGENCE:  
Proclarity, Business Objects , Cognos

PORTALS: Sharepoint, Websphere,  
Jetspeed, .NETNUKE

MAINFRAME: CA Ideal / Datacom,  
Cobol, JCL, ISAM, VSAM, MVS, CICS,  
IMS/ADABAS

- Deployable in a matter of days including customization,
- available to buy or rent on a software-as-a-service basis,
- easy to use with self-service interface,
- cost-efficient to maintain,
- available in all major languages.

### Some examples

Chronos Workflow Platform

IT Inventory

IT Helpdesk

Self Service Content Management

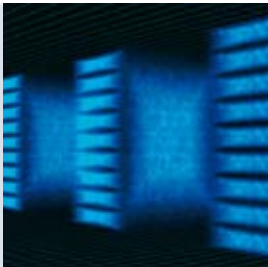

Web-based Testing

Timesheet Tracking

Employee Entry and Exit Workflow

Candidate Tracking

Agency Management

## Chronos Workflow

Chronos Systems developed a low-cost workflow tool which enables non-technical personnel to create workflows without programming knowledge. Basically, managers can draw their own processes and set up a workflow on their own in a matter of hours or days.

- Workflow implementation cycle time can be reduced on average by 50-70%. Typically it takes days, rather than months to set up a workflow process.
- Ready to use, off-the-shelf solution for all major server environments.
- Handles complex workflows, parallel processes and external interfaces.

- Able to implement workflows and quickly digitize processes without extensive coding.
- Suitable for CRM, Finance, Marketing, Manufacturing, HR and R&D-related processes.
- The cost of this platform equals that of a single custom development project.
- Built-in audit trail with tracking history and other reporting features.
- Deployable in a matter of days
- Able to implement new workflows in a matter of hours.
- ASP version is available!
